Welcome from the Vice President of HUST

Dear International Friends

It is my great pleasure to invite you to join the 2019 HUST International Academic Workshop (HIAW) on Chinese Language + Chinese Economic Development Model.

Last year marks the 40th anniversary of Reform and Opening up of China. The past four decades witnesses China's profound changes and brings enlightenment to the whole world. Belt and Road Initiative (BRI), Free Trade Zone, Special Economic Zones, the prosperity of E-business, etc., are the Chinese wisdom and solutions of economic development.

Aiming to provide international students with a channel to know Chinese economic development model deeply, we tap into the brilliant pool of the university's faculty, and its international network of experts, to develop and offer a portfolio of courses. In addition to creating an intensive academic environment, we hope to give you a dynamic social experience via city tours, cultural immersion, and a variety of extracurricular activities with HUST students.

We are looking forward to your arrival and hope you have a pleasant and rewarding stay here!

Prof. Chen Jianguo
Vice President of Huazhong University of Science and Technology

About HUST

HUST is a well-known university with a good ranking of top 7 in China and top 200 in the world. Located in Wuhan, the campus, also known as "University in the Forest", covers an area of over 460 hectares. HUST is devoted to fusion of humanistic and scientific education, and is dedicated to nurturing well-rounded individuals.

HUST has about 40 schools and departments, covering 10 subject areas: philosophy, economics, law, education, literature, science, engineering, medicine, management and arts, offering a variety of degree programs, including 99 undergraduate programs, 202 master programs and 189 PhD programs. There are around 58,000 students studying on campus, among which 25,000 are postgraduates and 3626 are international students from 153 countries.

In 2017, four disciplines namely, Mechanical Engineering, Optical Engineering, Biomedical Engineering, Public Health and Preventive Medicine, rank top 1 (A+) among their counterparts in China.

International students could apply to study the academic programs in English. Now HUST offers 5 undergraduate programs, 81 master's and 87 doctoral programs instructed in English covering the discipline of science, engineering, economics, management, medicine and so on. For over 50 years it has cultivated more than 7000 international students from over 150 countries and districts.
